

FOR IMMEDIATE RELEASE

More power, better flow with Backshop 4.0

Sausalito, CA, June 8, 2007 – The new Backshop 4.0 loan origination software makes commercial real estate deals flow faster and easier than ever.

Building on the industry-standard Backshop platform, version 4.0 features a bright new look and intuitive user interface. The enterprise-class software supports full NPV and Direct Cap Underwriting for all property types — commercial, multifamily, condominiums, construction, etc. — as well as bulk uploads, the ability to copy external deals, and more.

Backshop 4.0 will be previewed at the CMSA conference June 11-13 at the Waldorf-Astoria hotel in New York, NY. For a demo, visit our suite at the W New York on Tuesday, June 12 from noon to 5 p.m.

More about Backshop software

The new features are valuable additions to the proven transparency and productivity of Backshop:

- Streamline the entire lending process from start to finish.
- Industry standard lease-by-lease underwriting, securitization and pipeline management.
- Create custom reports at the pipeline, deal or intra-deal level.
- Upload and track critical documents online.
- Get deals seamlessly from CMBS.com brokers.

About the company

Backshop's powerful loan origination software improves the transparency and productivity of commercial real estate lending operations. Over the past eight years, Backshop software has elevated some of the top lenders to a more efficient, more profitable standard.
